Sound Designer, Foley Artist, Film Composer, Sound Editor, Field Recordist, Music Producer, Re-recording Mixer, Musician, Location Sound Mixer, Boom Operator, Teacher

Profile

I'm a passionate freelance sound designer and composer educated from Sonic College, working with music and sound for film. I focus on the story-telling potential in sound and music and how to shape and blend the sonic elements to support the story and atmosphere of the movie.

Education

2019-2021- Royal Academy Of Music (SDMK)

Film Music Composition (Masters Degree)

2015-2019 - Media & Sono-communication (Sonic College)

Medie- & Sono Communication - Sound Design (Bachelors Degree)

Course:

- Advanced Media Production
- Sound for Animation Film (TAW)

Internship:

- Lyd Til Film Aps / Morten Green

Bachelor Project:

- Tension In Sound Design & Film Music

• 2013-2014 - MGK (Musical Course)

Class:

- Songwriter-class
- Course: Studio Production

• 2009-2012 - Århus Katedralskole (High School)

Music A, English A, Psychology B

• 2008 - Eriksmunde Efterskole

Music, Photo, Painting, Drama

2006-2007 - Elise Smith Skole

Internship:

- The Animation Workshop in Viborg

Reccomendations

"The collaboration with Tobias and Josefine on the production of sound and music for "City of Memories" was a wonderful experience. They were extremely easy to communicate with and they delivered high quality work. I could not have wished for better composers and sound designers to work on this project." – Signe Tveitan Mortensen, Director of "City Of Memories" (TAW 2017)

"I had the chance to work with Josefine on a 30 seconds long animated NGO commerical. We were quite out of Josefine's musical experience in terms of what kind of music we wanted, but despite this she performed wonderfully with both the sound design and music. She was always very quick to send us new updates and to reply on feedback or questions. We developed a very good back and forth through our project and when there was confusion Josefine was very good at looking at the problem from a new angle and finding out what we were trying to say. I would definitely choose to work with her again." - Karoline Lie, Director of "In Balance" (TAW 2018)

"The collaboration with sound designer Josefine Skov was in every way successful. Josefine is extremely competent, creative and hardworking, and the process was characterized by a really good balance between her ability to come up with her own skills and unique "ear", but at the same time be responsive to the directors wishes and inputs - and thereby together find the desired expression. In the process there was always a really good atmosphere, despite tasks that sometimes required extra work. Overall a really cool collaboration with a super skilled sound designer, driven by the desire to get the best possible result." - Amalie Greger, Director of "As Good A Day As Any" (Feature Film, CPH: PIX 2018)
